for BK  
clean room  
for assembling  
something.

secluded off from surrounding, by a wall or fence or etc. Main bldg is very solid, massive, probably masonry, with long unevenly lit corridors, several levels, & offices & things w/ "open" type people.

Other w/in complex are varying sizes & shapes. One large one seems almost <sup>particularly</sup> constructed in access. A few or several long low bldgs & possibly w/ rounded roofs are also present. Sewerlines or leadstems to purpose of Site; purpose is officially sanctified, if covert; flavor of engineering purpose using technology, perhaps nearly dandized in word usage. hybrid between Gov't, military, science, technocrats, etc. Foreign.
